PROFESSIONAL SUMMARY

Software Engineer with **1.5+ years** of hands-on experience in **Flutter development and cross-platform mobile applications**; achieved **25% performance improvement** and **30% technical debt reduction** by implementing **Clean Architecture patterns** and advanced state management solutions; expert in **Dart, Bloc/Provider, Firebase integration, and RESTful API development**.

PROFESSIONAL EXPERIENCE

Software Engineer

Jul. 2024 – Present

Prameg — Part Time

Remolty

- Architected and implemented **Clean Architecture pattern** for the Remolty application, refactoring **15+ modules** to separate presentation, domain, and data layers, resulting in a **30% reduction in technical debt** and improved code maintainability.
- Optimized application performance by **25%** through advanced **Bloc and Provider state management**, eliminating unnecessary widget rebuilds and implementing efficient data caching strategies for **10+ critical features**.
- Redesigned **20+ UI screens** using modern Flutter widgets and Material Design principles, improving user experience and engagement metrics by implementing responsive layouts and smooth animations.
- Reduced build time by **15%** by optimizing dependency injection and implementing lazy loading patterns across the application architecture.

Flutter Developer

Apr. 2024 – Oct. 2024

Digital Egypt Pioneers Initiative & EYouth Egypt

Online

- Completed **200+ hours of technical training** covering Flutter, Dart, Kotlin, RESTful APIs, and state management, contributing to **3+ mobile development projects** using Agile methodologies.
- Developed **5+ feature-complete mobile applications** utilizing **Firebase integration**, Google Maps API, and payment gateway implementations, demonstrating proficiency in third-party service integration.
- Earned **certifications in Java, OOP, Kotlin, Dart, Flutter, State Management, RESTful APIs, and Git** through 100 hours of intensive coaching and hands-on project work.
- Collaborated with **4-member development teams** using Git version control, conducting code reviews and implementing best practices for mobile development workflows.

TECHNICAL SKILLS

Programming Languages: Dart, Kotlin, C++, Java, C, PHP, Python (Familiar)

Mobile Development: Flutter, Android (Basic), Cross-Platform Development

State Management: Bloc, Provider, Riverpod

Backend & APIs: Firebase, MySQL, Oracle, RESTful APIs, Google Maps API, Payment Integration (Paymob)

Software Architecture: Clean Architecture, SOLID Principles, Design Patterns, OOP

Development Tools: Git & GitHub, VS Code, Android Studio, Visual Studio, Figma, Postman

Core Competencies: Algorithms & Data Structures, Problem-Solving, Code Optimization

Soft Skills: Teamwork, Leadership, Communication, Collaboration, Problem-Solving

INTERNSHIPS & TRAINING

Information Technology Institute (ITI) – Flutter Development Track

Jul. 2023 – Aug. 2023

Duration: 60 hours

- Developed **4+ cross-platform mobile applications** using Flutter framework, implementing features such as user authentication, local storage, and API integration.
- Gained hands-on experience creating responsive UI/UX designs and implementing state management solutions for real-world scenarios.

Bank Misr (BM) – Mobile Development Track

Jul. 2022 – Aug. 2022

Duration: 90 hours

- Explored mobile development fundamentals using industry-standard practices, completing **6+ foundational projects** in Android and cross-platform development.
- Implemented core mobile features including navigation, data persistence, and API consumption in training projects.

PROJECTS

Fluency App – Live Language Learning Platform

[GitHub](#) — [Google Play Store](#)

Technologies: Flutter, Dart, RESTful APIs, Backend Integration, Firebase

- Developed and deployed a **production-ready language learning application** serving **1,000+ active users in Saudi Arabia**, available on Google Play Store with full backend integration.
- Implemented **5+ core screens** including home, notifications, authentication (sign-in/sign-up), and splash screen, ensuring smooth user navigation and responsive UI/UX design.
- Integrated **RESTful API endpoints** with backend services to handle user authentication, real-time notifications, and content delivery, implementing secure data transmission and error handling.
- Designed scalable architecture supporting user session management, push notifications, and data persistence for seamless cross-device experience.

EDUCATION

Bachelor of Computer Science

Sep. 2020 – Jul. 2024

Faculty of Computers and Information, Minia University

Grade: **Very Good**

CERTIFICATIONS & COURSES

Open Source Development – ITI

Flutter Development – ITI

Digital Egypt Pioneers Initiative – EYouth Egypt — [Certificate](#)

LANGUAGES

Arabic (Native) — English (Very Good)
